## **NOTIFY ME ISSUES**

There have been a number of people notify us whom have signed up for "Notify Me" through the City's web site and are not receiving the e-mails. Our service provider for our website has been contacted, and we have been told that the problem lies with Roadrunner's spam filtering system which is blocking the City's emails. In order to receive the emails, it was suggested that you make sure that the City is OK'd in your system as a sender. If that doesn't help, you might consider getting a free Yahoo or Gmail account as a short-term fix while they try to sort this out with Roadrunner.

If you no longer want to receive the e-mails please visit the city site and "unsubscribe" rather than just block these e-mails as spam. Coaches are also highly encouraged to notify their parents of any changes in game schedules.
